

ENERGY SAVING IN THE BATHROOM

Demista™, market leader in steam free mirror pads, has supplied another Park Plaza* hotel – The Park Plaza Westminster Bridge, London's biggest hotel for a generation, with heated mirror pads for all 2010 guest bathrooms.

In keeping with Park Plaza Hotels' energy conservation and sustainable environment practices the *demista™* pad cost only 1 p per hour even if it is run continuously for 24 hours. R & D Marketing's *demista™* heated mirror pads are used in hotels, property developments and homes worldwide. The pads are self adhesive and are fixed behind the mirror, wired into the lighting system and come in a variety of sizes and multiples for a wall of mirrors.

For the recently-opened Park Plaza Westminster Bridge Hotel R & D Marketing supplied *demista™* pads in the 524 x 524 mm size (model 7030) to the manufacturers of the bathroom 'pods' – E.J. Badekabiner (UK) Limited via the procurement firm, The Commercial Company (UK) Limited.
